Meeting Minutes - Status Report 03/29/2018

Attendees: Sara El Alaoui, Jim Drake, Brady Garvin, Brooke Lampe, Miracle Modey, Suzette Person, Jacob Petersen

Discussion

What is ProviderManagementUtils responsible for?
It is responsible for finding providers, supervisors, supervisees, and relationships between them.

Is there any feedback on the actual test cases?
No, only on how to fix the test cases. The OpenMRS developers liked the test suite design.

Did we check coverage on testing?
No, we plan to do that. We are fixing some of the tests right now.

Did we have coverall bots?
No, not yet.

Action Items

Testing
- Finish fixing the tests
- Create a new pull request for the fixed tests
- Determine test coverage

Code Change
- Find a new bug fix or improvement to implement
- Write a proposal on the bug fix or improvement
- Obtain approval on the proposal
